Try going a day without plastic. Plastic is everywhere and infiltrates our lives in unimaginable and frightening ways. In this touching and often flat-out-funny film, we follow “everyman” Jeb Berrier, who is admittedly not a tree hugger, as he embarks on a global tour to unravel the complexities of our plastic world. What starts as a film about plastic bags evolves into a wholesale investigation into plastic and its affect on our waterways, oceans, and even our own bodies. We see how our crazy-for-plastic world has finally caught up to us and what we can do about it. Today. Right now.
