Parents are welcome to join!

How does a blind person see colors? How do we know what people look like? Dr. Arielle Silverman has been blind since birth, and will answer these and other questions during this interactive program. We will also talk about what daily life is like with a disability, and how we can fully include people who are different.

11:00 am - Let's Do Brunch! For Adults of All Ages

OST Members & Non-Members Welcome

We often aren't sure how to include someone who looks, sounds or acts "different." How can we be kinder and more respectful to people with disabilities? Come to this interactive session to learn some basic principles we can keep in mind when including people with disabilities in our communities. Brunch will be provided.
